

BEAUTY IS MORE THAN SKIN DEEP

WWW.BEAUTYWATERUSA.COM

Our Desire

To change lives by promoting better health through hydration

Our mission is to support a better quality of life

by providing the best tasting and cleanest bottled water that we know of and educate our consumers on the importance of proper hydration by drinking an adequate amount of the cleanest water to support overall health. According to our research, an estimated 90% of the American population lives in a constant state of dehydration. Our goal is to significantly lower that number wherever we can.

Water makes up more than two-thirds of the human body weight. The human brain is made up of 75% water. The blood is made up of 88.2% water.. A mere 2% drop in our body's water supply can trigger signs of dehydration. By the time we are thirsty our body has already suffered some of the effects of dehydration including a decrease in mental capacity, activity and more. We must stay hydrated for optimal functionality.

SOME WATER FACTS because we're passionate about hydration.

HUMAN BODY WATER CONTENT - Approximately 78.8%

HUMAN BRAIN - 95% water

the center of the nervous system coordinates its actions by transmitting signals to and from different parts of the body.

LIVER - 96 % water

detoxifies various metabolites, synthesizes proteins, and produces biochemicals necessary for digestion.

A close-up photograph of a woman's face in profile, looking down. Water is splashing over her face and hands. The image has a soft, ethereal quality with a light blue and white color palette. A teal square frame is centered over the image, containing the text 'PRESENTS' in white capital letters. The background is a solid black bar at the top and bottom.
